Who is your biggest customer? 6 votes

No response available.

When will MadeInSpace make money? 5 votes

No response available.

What type of materials are used to print antennas? 5 votes

No response available.

Do you have competition? If so, who? 5 votes

No response available.

What materials are you manufacturing with that can handle the thermal and radiation environment? 4 votes

No response available.

Do you or will you manufacture medicines in space? If yes who would regulate this manufacturing? 4 votes

No response available.

Explain the costs better when mfg material have to be shipped to space, a costly supply chain .Examples of successful needs? 4 votes

No response available.

With Space Debris becoming a bigger issue, would you work towards not so much biodegradable but "space"-degradable material? 4 votes

No response available.

Have you considered using additive manufacturing on orbit for de-orbiting purposes at end of life? 3 votes

No response available.

How do you validate structural integrity of your manufactured structure on orbit? 3 votes

No response available.

How do you manage heat dissipation when printing larger structures in space for extended periods of time? 2 votes

No response available.

Can you restock it with raw material after the initial stock of build material it was sent with is used up? 2 votes

No response available.

Is additive printing a reversible process? Can you "unprint" and reuse raw material if needed? 2 votes

No response available.

Can your printer print a printer? 2 votes

No response available.

Could this technology be useful for making robotic landers in space (i.e. for missions to the moon or Mars)? 2 votes

No response available.

Do you see benefits on adding human in the loop now or later to increase QaQc? 2 votes

No response available.

Have you attempted 3D printing human tissue for medical purposes? 2 votes

No response available.

What are the sources of your raw materials for Archinaut construction? 1 votes

No response available.

Do you have any internships or scholarship programs for students? 1 votes

No response available.

Will you have a carry on printer on so you can self heal, or self print as needed? 1 votes

No response available.

Do you see your approach to be exposed to cyber security concerns? 1 votes

No response available.

How is a larger solar array better? 1 votes

No response available.
