

Panel: Leveraging CRS to Expand LEO Commercialization

October 12, 2017

1. How will Northrop's acquisition of Orbital change the landscape of possibilities?
2. For Frank: any chance of non-Cygnus customers for Antares?
3. Re Dreamchaser: when drop test and when orbital test? Also first revenue mission
4. If commercial destinations are the key to LEO development, who will build them and who will demand space on them? When?
5. As kids NASA inspired us. What are your companies doing to inspire the future workforce (kids) to work in the space business?
6. For Frank: can you rule out more Cygnus missions on Atlas?
7. What is the lead time required to fly commercial payloads on these platforms? Months? Years?
