

Keynote Address: Updates in Commercial Spaceflight – A D.C. Perspective

Eric Stallmer

October 10, 2018

1. Will the CSF or UAG take a position on the NASA OIG SLS report?
2. Are public/private partnerships just another way to say, “Billionaires and billion dollar corporations, bring money,”?
3. Does CSF have a strategy for working with the financial sector to help build understanding of space among investors?
4. How ready is the customer market for Commercialization of ISS and LEO in general?
5. What are the biggest challenges in enhancing public-private partnerships to create commercial space economies in low Earth orbit and on and around the Moon?
6. Part of CSF's mission is to pursue ever-higher levels of safety throughout the industry - describe how CSF is doing this.
