

Keynote Address: Commercial Suborbital Flight – A Tipping Point 10 Years In The Making
Tim Chen

October 10, 2018

1. Space debris is a huge challenge to space commercialization. Is NASA FO a logical arena for developing mitigation strategies?
2. Was the Solstar Wi-Fi in space an FOP project,
3. What kind of support/advice/encouragement does FO provide to faculty who is starting in their academic career to fly their research?
