## Panel 2- suborbital markets for payloads

---

**Will VG eventually have a longer space flight duration to more than 10 min?** 8 votes

No response available.

---

**VG & Blue: STEM payloads are cool. But what is the paying, profitable business driver? The "killer use" for your systems** 6 votes

No response available.

---

**Erika: Has Blue Origin lost interest in NewShepard? Why the delay in test flights?** 5 votes

No response available.

---

**What sort of safety requirements are placed on these sub orbital payloads.** 5 votes

No response available.

---

**w/ VG & STARGATE as great examples of efforts to get students involved early in their careers, is BO going to do anything similar?**

5 votes

No response available.

---

**When will NASA will consider flying researchers through fop?** 5 votes

No response available.

---

**With easier access to payload deployment, what is your opinion on short term telescope projects, vs long term (Hubble/Webb)** 4 votes

No response available.

---

**Blue said payload integration in < 6 most. Payload licensing via FAA and Int'l orbital rules are longer. Pls reconcile both** 3 votes

No response available.

---

**For NASA flight opportunities: can you explain the application process for faculty interested in flying students' payloads.** 3 votes

No response available.

---

**What is the longest payload flight?** 3 votes

No response available.

---

**Can you explain more about your plans for commercialization of LEO in particular** 2 votes

No response available.

---

**What's your biggest challenge to support successful payload availability to support timing integration for those who want to launch on schedule?** 2 votes

No response available.

---

**Will any of you consider mammal (mice) experiments?** 2 votes

No response available.

---

**What's a "bad" vs "good" proposal? Examples?** 1 votes

No response available.

---

**How would you implement and ensure the security of classified payloads?** 1 votes

No response available.

---

**do the payloads have to be FAA cert or just del vehicle ??** 1 votes

No response available.

---

**have you considered standardizing payload integration for researchers? across institutions (VG/BO/etc)?** 1 votes

No response available.

---

**has Blue Origin considered helping startups get their payloads to space in return for equity** 1 votes

No response available.

---

**What do you think of the idea of a regional center of excellence here for  $\mu$ g research? Will Blue and Virgin contribute that?** 1 votes

No response available.

---

**How many White Knights/Spaceship 2's does VG anticipate building near/far future?** 1 votes

No response available.
