## Panel 3- Space Laws

---

**Will biological contamination be strictly regulated? Will regulations be in place to mitigate tardigrade pollution?** 15 votes

No response available.

---

**if an actor in violation of regulations has assets on orbit, how do you enforce compliance? can you force suspension of access?** 13 votes

No response available.

---

**are there any laws in place to prevent militarization of the moon or even mars?** 13 votes

No response available.

---

**What steps are taken to prevent further debris and who enforces this regulations?** 11 votes

No response available.

---

**Are there issues in export control and CFIUS that commercial space companies doing international business should be aware of?** 10 votes

No response available.

---

---

**how do you prevent NGO's from developing militarized assets in space?** 10 votes

No response available.

---

**Given this is the International SPCS... how do US regulations compare to other countries? Do you anticipate commercial flights under "flags of convenience"?** 10 votes

No response available.

---

**How do you think manufacturing of space medicine will be be regulated? For example 3D printing of medicines and licensing** 9 votes

No response available.

---

**As we move towards the moon/mars do you believe there should be regulations in place to guide positive interplanetary culture** 8 votes

No response available.

---

**What are the main differences when practicing space law compared to "standard" law?** 7 votes

No response available.

---

**Is there sketpicism/condescension among your law peers of working in the space industry?** 5 votes

No response available.

---

**With Orbital flight projected in the new future, How will the laws regard possible astromaterial acquisition?** 4 votes

No response available.

---

**Is NASA's use of non FAR contracts (OTA) for major contracts a good idea or will it lead to problems later** 4 votes

No response available.

---

**CSF is a pay-to-play organization, with many launch corps and orgs not involved. Why does CSF say it represents industry?** 3 votes

No response available.

---

**Currently planned suborbital flights land in the vicinity of the launch sites. If point to point suborbital flights materialize, what new rules might be needed?** 2 votes

No response available.

---

**What would you consider the most burdensome part of current regulations that you would like to see changed?** 2 votes

No response available.

---

**Are there any concepts that you have worked on or are aware of that many people may not know about?** 2 votes

No response available.

---

**Do you think we'll have prisons on orbit? Should we?** 1 votes

No response available.

---

**How are cyber crimes or hijacks of decommissioned satellites that have yet to deorbit within the 25yrs rule handled?** 1 votes

No response available.
